

MANUFACTURED PIPE + FITTINGS + SPOOLING | CANADIAN MADE

Superior quality in every spool.

As Canada's premier manufacturer of custom welded stainless steel piping, all of our products are fabricated locally in Canada. We prioritize high-grade North American raw materials and partner exclusively with trusted mills that uphold our strict quality and traceability standards.

Douglas Barwick's business focuses on engineered projects, spooling and end-user requirements for pipe and fittings. With an experienced workforce, we can manage both small- and large-scale contracts for companies in the mining, oil and gas, renewable energy, and forestry sectors, among others.

TAPPI

Engineered for North America's most demanding industrial sectors.

WE BRING SOLUTIONS TO INDUSTRIES THAT INCLUDE:

AI Data Centre Construction	Agriculture
Chemical & Petro Chemical	Ethanol & Bio Fuels
Food & Beverage	Liquid Natural Gas
Oil & Gas	Potable Water
Pulp & Paper	Wastewater Treatment
Wine & Spirit	

CANADIAN MADE

- Welded pipe
- 90° long-radius Elbows (LR)
- 90° short-radius Elbows (SR)
- 45° elbows (45° ELL)
- Mitred elbows
- Concentric reducers
- Eccentric reducers (ECC RED)
- Equal tees (EQ)
- Reducing tees (RED TEE)
- Crosses
- Laterals (LAT)
- Wyes
- Caps
- Pressed collars
- Angle collars
- Stub ends (TYPE B SE)
- Couplings (CPLG)
- Backing flanges
- Slip-on backing flanges (SO)
- Lap-joint flanges (LJF)
- Welding neck flanges (WN)
- Socket welding flanges (SW)
- Threaded flanges (THRD)
- Blind flanges (BL)
- Quick opening Clean-outs
- Grooved style clean-outs
- Diamond clean-outs
- Manways
- Pipe hangers
- Cut and rolled groove adaptors
- Spacers
